### PROFILE

Technology - Made in Germany

PREBENA-PWM is more than 45 years one of the leading manufacturers for production machines in the fastening technology. Altogether 20 different production machines - for the production of staples, brads and pins, collated nails and screws - were produced. In addition belong staple automats, presses, collator for nails and screws, also different machines for semiautomatic and fully automatic packing. We developed wire-band-lines as special service, which are inserted in PREBENA production and leading manufacturing sites in Europe, USA, South America and Asia.
